DENZA Z9GT

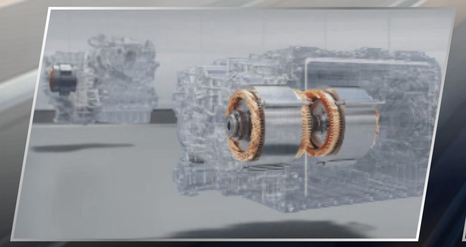

TECHNOLOGY DRIVES ELEGANCE

When technology transcends every limitation,
elegance extends far beyond what meets the eye.

DENZA Z9GT embodies the spirit of exhilaration
through advanced driving technology that elevates every journey.
Intelligent control enhances every movement,
seamlessly united with world-class design.
Every line and every detail is shaped with precision,
creating a new expression of luxury
that moves you in every sense.

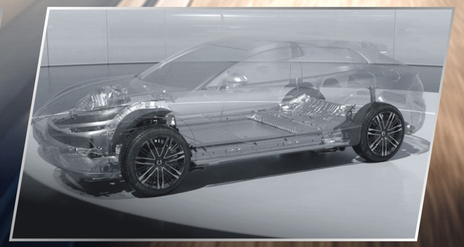

PERFORMANCE

Unleash the full potential of performance, transcending the limits of mobility.

e^3 Platform 3 Motor

An intelligent platform engineered for instant response, with three independently driven motors precisely distributing driving force to each wheel.

BYD 2nd Generation Blade Battery

CTB (Cell-to-Body) Technology integrates the Blade Battery directly into the vehicle structure as one, enhancing rigidity, safety and balance on every drive.

INTELLIGENCE DRIVES ELEGANCE

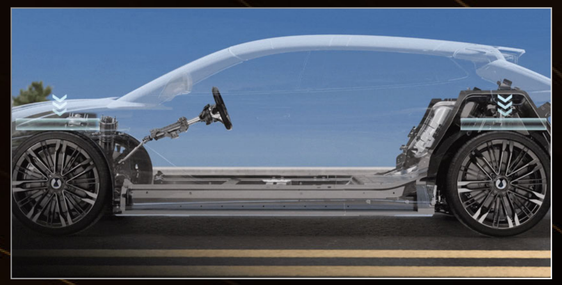

Intelligent technology transforms every command into precision,
Delivering freedom of movement and opening every journey to new possibilities.

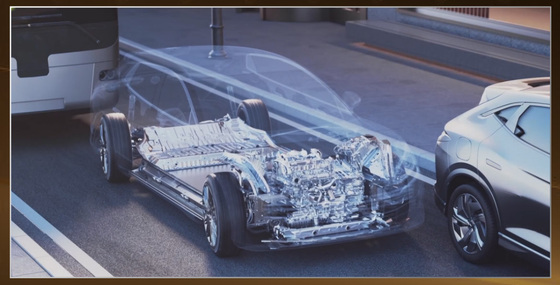

e³ Platform *integrates advanced tri-motor electric drive technology for an elevated driving experience.*

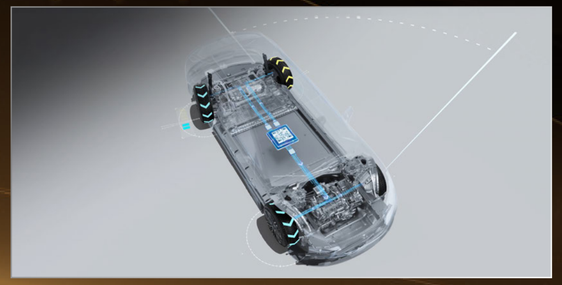

e³ *Parking System*

DiSus-A *Intelligent Damping Suspension adjusts the vehicle height from 100–145 mm.*

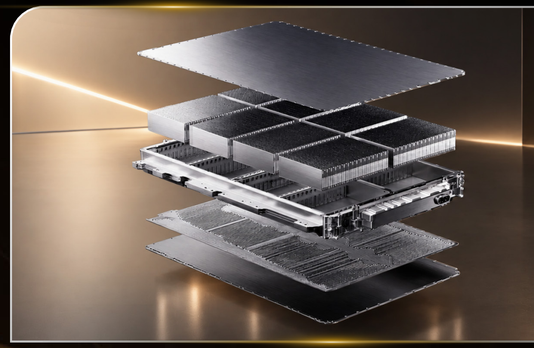

Crab Mode *enables 15° diagonal driving, enhancing manoeuvrability in tight spaces.*

Pencil Compass Turn
Rotates the vehicle around a central pivot point.

TECHNOLOGY & SAFETY

From a robust structure to technologies engineered to anticipate and respond in an instant.
Every element is designed for comprehensive protection.

BYD 2nd Generation Blade Battery

The latest-generation battery with 1000V architecture, delivering greater energy density and enhanced protection against short circuits.
